❖ CHECK ISSN NO.

The screenshot displays the ISSN Portal website. At the top left, there are logos for ISSN International Standard Serial Number International Center and ISSN Portal. The ISSN Portal logo includes the text 'The Global Index for Continuing Resources'. To the right of these logos is a 'FREE ACCESS' button and icons for a globe and a building. Below the logos is a navigation bar with five purple buttons: 'PUBLISHERS' AREA', 'DISCOVER ISSN SERVICES', 'SEARCH OPEN ACCESS RESOURCES', 'KEEPERS REGISTRY', and 'ISSN INTERNATIONAL CENTER'. The main search area features a large white input field with the placeholder text 'Type an ISSN or a title', which is highlighted with a red border. To the right of the input field is a dropdown menu labeled 'ISSN or title' and a blue 'Search' button. Below the search button are links for 'Advanced search', 'ROAD search', and 'The Keepers search'. At the bottom left of the page are icons for a home page and a globe. The main content area contains the text: 'Find your way through the world of periodicals with the International Standard Serial Number'.

قواعد معرفة رصانة  
المجلات

الموقع  
الإلكتروني

# الموقع الالكتروني

- The Website must have:
- Publisher name & location (Contact information)
- Editorial Board
- Instructions to authors
- Journal Aim and Scope
- Journal policy & publication ethics
- اجور النشر APC

## Publication Fees

APC for Malaysian authors: 300 RM

For International Authors : 100 USD

APC will be **only required after acceptance** of the paper

**Waiving Policy:** The journal may grant a waiving of APC fees based on case by case application, authors are required to write official letter to GJPHM indicated the reasons for waiving.

استلام البحوث  
إلكتروني

## استلام البحوث إلكتروني

- يفضل وجود نظام كامل لاستلام وتقييم البحوث كنظام OJS
- نظام OJS هو برنامج لنشر الإنتاج العلمي على الأنترنت يمتاز بالمرونة العالية فيما يتعلق بأعمال هيئة التحرير.
- صمم لتقليل الوقت والجهد المصاحبين للأعمال المكتبية والإدارية لهيئة التحرير.
- يهدف لرفع كفاءة ومستوى الناتج العلمي الذي تنشره المجلة من خلال تحسين الخدمات المقدمة للقراء ولجعل سياسة المجلة أكثر شفافية وتحسين الفهرسة (إحصائيات البحوث المقبولة والمرفوضة وعدد القراء والبحوث المنزلة والمقتبس منها).

## إنهاء طلب النشر

نشكر لك اهتمامك بالنشر لدى سلسلة العلوم الأساسية.

### ماذا سيحدث بعد ذلك؟

لقد تم إشعار المجلة بشأن طلبك هذا، وقد تمت مراسلتك لتأكيد بياناتك. بمجرد أن يراجع المحرر طلبك، سيقوم بالاتصال بك.

حالياً، بإمكانك:

- [مراجعة طلب النشر هذا](#)
- [إنشاء طلب نشر جديد](#)
- [العودة إلى دفة القيادة](#)

1. Start

2. Upload Submission

3. Enter Metadata

4. Confirmation

5. Next Steps

### Section

Articles must be submitted to one of the journal's sections. \*

### Submission Requirements

You must read and acknowledge that you've completed the requirements below before proceeding.

- The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
- The submission file is in OpenOffice, Microsoft Word, or RTF document file format.
- Where available, URLs for the references have been provided.
- The text is single-spaced double-column; uses a 12-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
- The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines.

Abstracting and Indexing

### Aims and Scope

Universal Journal of Physics Research is an international peer-reviewed journal that publishes original and high-quality research papers in all fields of physics, as well, it publishes reviews, short notes and reports, communications, perspectives, comments.

Details:

**Communications:** these are urgent reports of highly original and significant work likely to have a high impact on the community and of such importance that rapid publication is justified.

- **Reviews:** concise and critical reviews of important or emerging topics in physics. Reviews should be easy to read and cover current areas of interest, rather than comprehensive reviews of the literature, and may include a limited amount of unpublished research.
- **Perspectives:** these are high profile articles that present an authoritative state-of-the-art account of the selected research field. UJPR perspectives take a wide variety of forms including personal accounts of research and critical analyses of topics of current interest.
- **Comments:** comments and replies are a medium for the discussion and exchange of scientific opinions between authors and readers concerning material published in UJPR. For publication, a Comment should present an alternative analysis of and/or new insight into the previously published material. Any Reply should further the discussion presented in the original article and the Comment. Comments and Replies that contain any form of personal attack are not suitable for publication. Comments that are acceptable for publication will be forwarded to the authors of the work being discussed, and these authors will be given the opportunity to submit a Reply. The Comment and Reply will both be subject to rigorous peer review in consultation with the journal's Editorial Board where appropriate. The Comment and Reply will be published together.

## ABOUT MEDICINE & HEALTH

*Medicine and Health* is an international journal published by the Faculty of Medicine Universiti Kebangsaan Malaysia. The journal is published twice in a year (June and December) in electronic format.

The journal publishes invited editorials, reviews, original research papers, interesting case reports and clinical quiz. There are no publication charges. All submitted manuscripts are subjected to rigorous peer review process done by at least two independent reviewers in the specialized field. Articles are published in English language. In addition, an abstract in Bahasa Malaysia is also published for all the articles except editorials and clinical quiz. All articles are freely accessible in electronic format.

1000 دولار أو أكثر) كدعم  
لمصاريف المجلة

# المجلات المفترسة و المخطوفة

## مجلات مخطوفة

- يتم إنشاء موقع الكتروني ثاني غير الموقع الأصلي للمجلة وبعد النشر في هذه المواقع سوف لن يظهر البحث في قاعدة بيانات سكوبس

## مجلات مفترسة

- لا تتبع أصول نشر البحث العلمي من ناحية التقييم والبحث العلمي لذا تنشر بحوث تحوي معلومات غير دقيقة أو غير صحيحة.
- هدفها الرئيس هو الحصول على المال.
- سريعة وتنشر الأبحاث خلال أيام
- تقوم بتغيير أسمائها باستمرار وخصوصاً بعد اكتشافها
- لها عدة أساليب للإيقاع بالباحثين كادعائها بأن المجلة لها معامل تأثير ووضع شعارات مؤسسة السيفر وكلاريفت على موقعها وعرض أسماء مؤلفين من جامعات عالمية تدعي بأنهم بأنهم نشروا بحوثهم فيها

### What is vanity press?

Vanity press is a type of publishing, where authors pay to have their work published; either in money or – more often – in the author’s publication rights. During the publication process, **no peer-review is promised by the publisher** and no quality control is done. Vanity press usually does no editing, and the authors are left to do all the formatting and spell-checking by themselves. Their works are then published in self-publishing outlets, such as on Amazon, and physical copies of their books have outrageously high prices. The authors, of course, get no income from the sales.

### Useful I

List of print-o  
and vanity pr  
(academic an  
academic)

Vanity press usually targets young academics with no experience that

journal is on the right. In cases where no website can be found for the original journal, a link is made to a bibliographic record for the journal.

# Find the Article Processing Charges (APC) for a specific journal

Modified on: Thu, 6 Apr, 2023 at 3:52 AM

To find the APC information, please look for the [Open Access Fees and Funding](#) section on the **journal homepage**.

Alternatively, you will find the APC per journal by downloading the list for **fully Open Access** journals or **Hybrid journals** on our [Open Access Journals](#) page.

Our journals lists are updated twice a year, so some newly launched journals might not yet be listed on that webpage.

For Open Access funding options, please check [Funders for Open Access articles and books](#).

*Safety and Health at Work* (SH@W) is an international, peer-reviewed, interdisciplinary journal published quarterly in English beginning in 2010. The journal is aimed at providing grounds for the exchange of ideas and data developed through research experience in the broad field of occupational health and safety.

## Open access journal

This journal is a peer reviewed, subsidized open access journal where the Occupational Safety and Health Research Institute pays for the publishing costs incurred by the journal. Authors do not have to pay any Article Processing Charge or Open Access Publication Fee.

## Access rights

All articles published open access will be immediately and permanently free for everyone to read, download, copy and distribute.

## User rights

All articles published open access will be immediately and permanently free for everyone to read, download, copy and distribute. Permitted reuse is defined by your choice of one of the following user licenses:

**Creative Commons Attribution (CC BY):** lets others distribute and copy the article, to create extracts, abstracts, and other revised versions, adaptations or derivative works of or from an article (such as a translation), to include in a collective work (such as an anthology), to

# النشر المجاني في المجلات العالمية

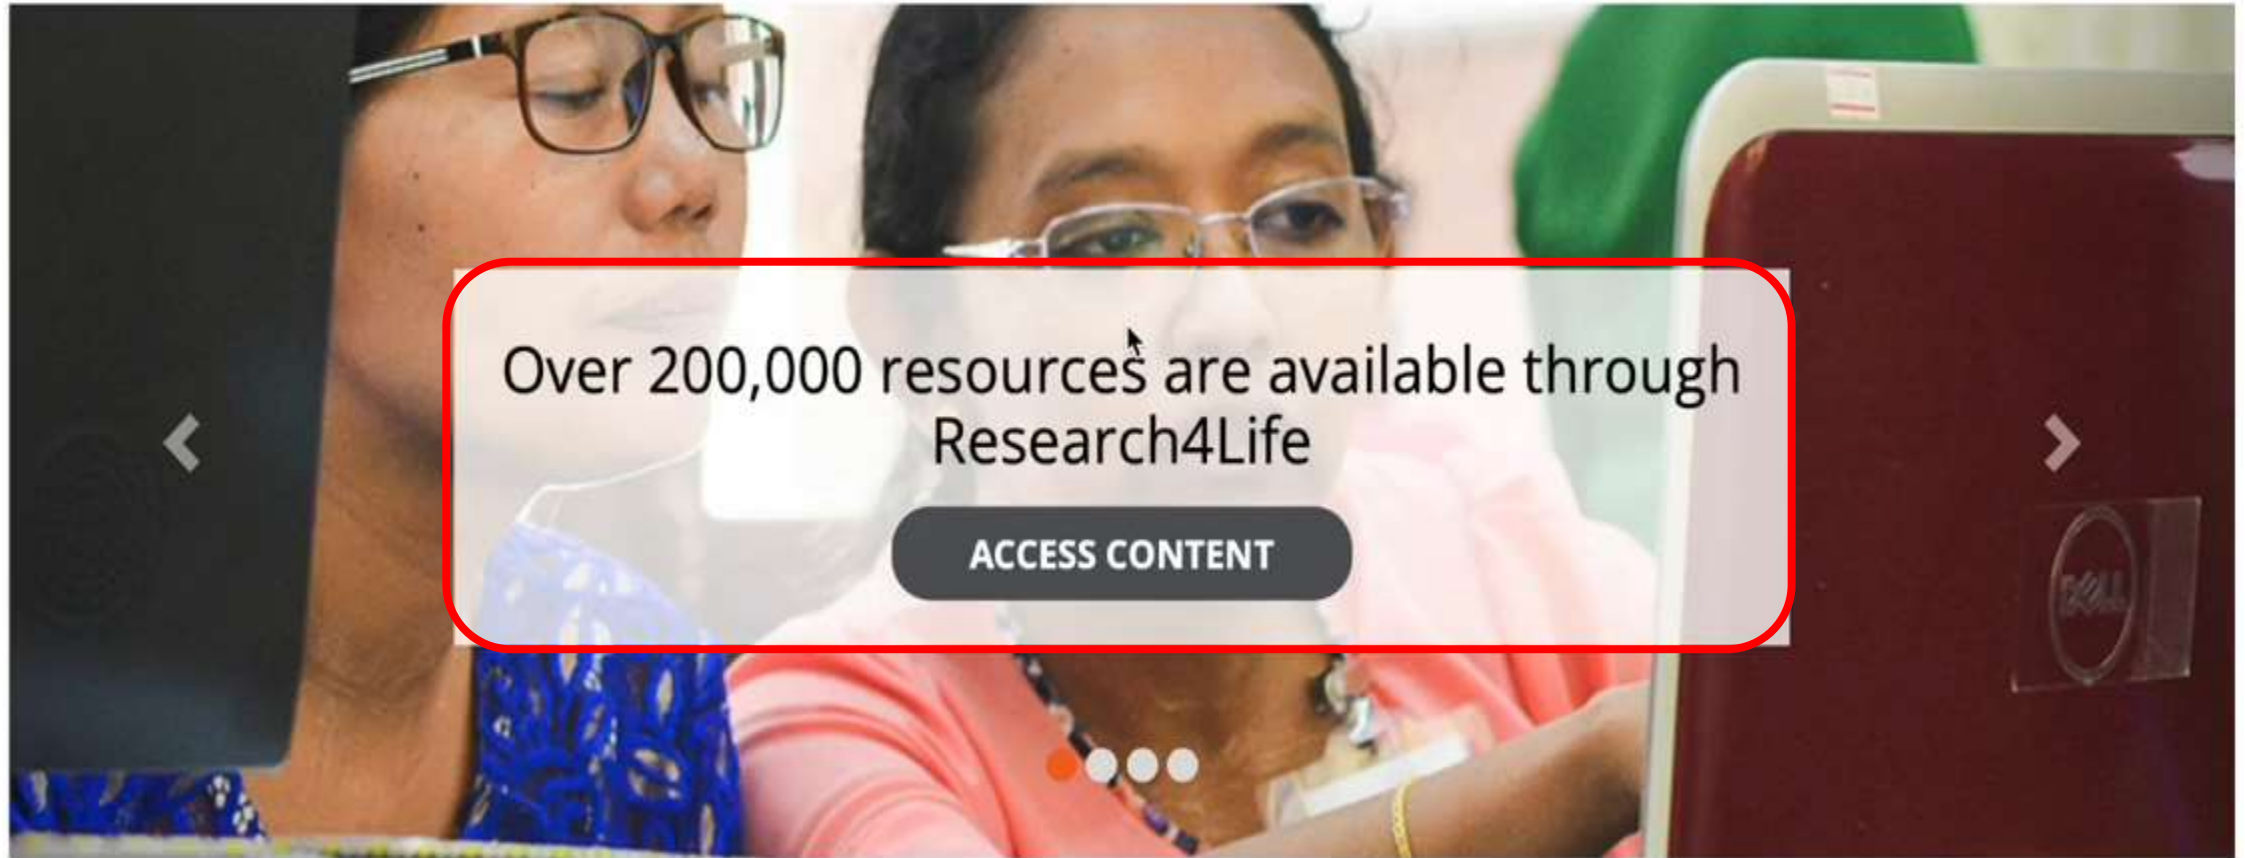

## Research4life

- منظمة تقدم مستلزمات التعليم للدول متوسطة ومنخفضة الدخل كالاشتراك في المجلات العلمية ودور النشر والنشر المجاني .
- تأسست عام 2002 وتخدم حوالي 11,000 هيئة تعليمية.
- هناك 200,000 مصدر متوفر عن طريق هذه المنظمة.
- توفر أكثر من 200,000 مجلة ومقال في مجالات الصحة والزراعة والبيئة و العلوم والتكنولوجيا.
- <https://www.research4life.org>

## DOAJ

Directory of Open Access Journals

- قاعدة بيانات المجلات المفتوحة الوصول.
- أنشأت ب2003 وبدأت بالنمو سريعاً جداً بعد2015
- تعد ثالث قاعدة بيانات.
- تحتوي على حوالي 17000 مجلة و7 ملايين بحث.
- تحتوي على 12000 مجلة مجانية النشر.

# 200,000 RESOURCES

## NOW AVAILABLE THROUGH RESEARCH4LIFE

Since 2002, Research4Life has provided researchers at more than 11,000 institutions in over 125 lower- and middle-income countries with free or low-cost online access to up 205,000 leading journals and books in the fields of health, agriculture, environment, applied sciences and legal information.

We do this **in partnership** with organizations in the fields of scholarly communications, technology and international development: WHO, FAO, UNEP, WIPO, ILO; Cornell and Yale Universities; the International Association of Scientific, Technical & Medical Publishers and more than 200 international publisher partners.

There are five **content collections**: Research for Health (Hinari), Research in Agriculture (AGORA), Research in the Environment (OARE), Research for Development and Innovation (ARDI) and Research for Global Justice (GOALI).

*Our heartfelt thanks and appreciation to Research4Life. Words are inadequate to express how this is key to fill the gaps that existed in our library collection over the past years.*

— User in Liberia

There are five **content collections**: Research for Health (Hinari), Research in Agriculture (AGORA), Research in the Environment (OARE), Research for Development and Innovation (ARDI) and Research for Global Justice (GOALI).

[Home](#) / [Content associated with Hinari](#)

## **Content associated with Hinari**

Hinari offers access to thousands of journals, books, and other information resources in biomedical and health sciences topics. The journals and books can be searched through a special version of PubMed (Medline) and through other databases.

[/ Content associated with ARDI](#)

## **Content associated with ARDI**

ARDI offers access to scholarly literature from diverse fields of **science and technology**. It promotes the integration of developing and least developed countries into the global knowledge economy, reinforcing the knowledge infrastructure and supporting researchers in creating and developing new solutions to technical challenges on a local and global level.

[Home](#) / [Content associated with AGORA](#)

## **Content associated with AGORA**

AGORA provides access to thousands of information resources covering **agriculture, fisheries, food**, nutrition, veterinary science and related biological, **environmental and social sciences** in public institutions across the world.

[/ Content associated with GOALI](#)

## **Content associated with GOALI**

Academic and peer-reviewed journals, publications and databases on **law and social sciences**. Incorporating disciplines such as **politics, economics, philosophy, history** and many more from the most prestigious academic publishers, GOALI offers access to up to 16,000 resources, including books and peer-reviewed journals from 70 publishers, and the offering keeps growing.

[Home](#) / [Content associated with OARE](#)

## **Content associated with OARE**

OARE provides access to information resources in a wide range of disciplines contributing to our understanding of the **natural environment**, including environmental toxicology and pollution, ecology, geography, environmental economics, environmental law, conservation policy, environmental engineering, energy and many others.

Simply insert your title and abstract and select the appropriate field-of-research for the best results.

### Paper title

### Paper abstract

Longitudinal and transverse electron scattering form factors for some selected positive and negative parity states of stable odd-A nuclei ( ${}^7\text{Li}$ ,  ${}^{13}\text{C}$  and  ${}^{17}\text{O}$ ) in the p- and sd-shells are investigated by considering the higher energy configurations outside the p- and sd-shells. The higher energy configurations, referred to as core polarization effects, are considered by means of a microscopic theory that includes excitations from the core 1s-1p, 2s-1d orbits to the higher allowed orbits with  $4_1^-\text{hx}$  excitations. The calculations are performed in the p- and sd-shell model spaces by employing Cohen-Kurath, Reehal and Wildenthal interactions respectively, while the core polarization effects are calculated with the modified surface delta interaction as residual interaction. The predicted form factors are compared with the available experimental data and it is shown that the inclusion of the higher excited configurations is very essential in the calculations of the form factors and the reduced transition probabilities to obtain reasonable description of the data with no adjustable parameters.
